

THE CONTACT CHRONICLES:

A LIVING FIELD OF CONTACT RETREAT

Presented by Transformational Channel and Educator

Annie Bossingham

Bend, Oregon (near Sisters)

September 10 – 13, 2026. Cost \$600

Our location embodies a 'Portal to the Cascades' showcasing breathtaking views of the Three Sisters Mountains. The land features artistic creations, including Standing Stones, a Golden Mean Spiral, an Arcturian Gateway, and a Mystic Mill – artistic works thoughtfully conceived and implemented by our hosts.

Throughout the weekend, we will engage in meaningful dialogue with members of the galactic community—extraterrestrial, interdimensional, and non-physical consciousness. They will join us as collaborators in an ongoing evolutionary conversation, founded on friendship, resonance, and mutual recognition.

Teachings and transmissions will be shared by lyla (Pleiadian), Anima (Essassani), a Mantis Being, an Orion Alchemist, Nexus, and other contact facilitators. Instead of adhering to a fixed agenda, this retreat will be shaped in real time by the participants. The content will evolve based on the group's curiosity, readiness, emotional tone, and depth of engagement.

What emerges from this experience is not pre-scripted. This is contact experienced as relationship, co-created moment by moment.
