## EXPLORING THE NEW LANDSCAPE OF CONSCIOUSNESS AND GALACTIC CONNECTION

Presented by Transformational Channel and Educator  
Annie Bossingham

February 27<sup>th</sup> – March 1<sup>st</sup>, 2026  
Tiburon, CA    Cost \$450

We can all feel it — nothing is the same. The familiar structures of life and identity are shifting, and we find ourselves standing on a new playing field. But what is this new landscape, and why does it feel both challenging and full of potential?

This seminar explores the expanding nature of human consciousness — and how our inner evolution is inseparable from our galactic connections. As our awareness grows, so does our participation in a greater multidimensional reality. Together we'll explore how these shifts reshape the way we create, relate, and experience contact as a living, evolving field.

Through a series of channeled lectures, guided meditations, and open spaces for questions and integration, participants will be supported in attuning to the frequencies of the new human experience and the unfolding architecture of galactic connection.
